Systematic Zoology

Published by

The Society of Systematic Zoology

Contents of Volume 27, 1978, Numbers 1–4

Issued 1978, Lawrence, Kansas U.S.A.

NUMBER 1

A Method of Analysis for Historical Biogeography — *Norman I. Platnick and Gareth Nelson* — 1
The Evolutionary Species Concept Reconsidered — *E. O. Wiley* — 17
The Number of Evolutionary Trees — *Joseph Felsenstein* — 27
Interspecific Morphologic Variation in Kangaroo Rats (*Dipodomys*): Degree of Concordance with Genic Variation — *Gary D. Schnell, Troy L. Best, and Michael L. Kennedy* — 34
A Morphometric Discriminant Analysis of Agouti Genotypes in C57BL/6 House Mice — *Larry Leamy and Schelly Schwam Sustarsic* — 49

Points of View
- On Ratios—A Response to Atchley, Gaskins, and Anderson — *Michael Hills* — 61
- On the Use of Ratios in Growth Studies — *Peter Dodson* — 62
- Some Comments on the Use of Ratios — *Gene H. Albrecht* — 67
- Ratios and the Statistical Analysis of Biological Data — *William R. Atchley and Dwane Anderson* — 71
- Ratios, Regression Intercepts, and the Scaling of Data — *William R. Atchley* — 78
- Origin and History of Some Terms in Systematic and Evolutionary Biology — *Ernst Mayr* — 83
- Generalized Tracks and Dispersal in Biogeography — *R. M. McDowall* — 88
- Professor Michener on Phenetics—Old and New — *Gareth Nelson* — 104
- Dr. Nelson on Taxonomic Methods — *Charles D. Michener* — 112
- How Pure Must a Cladistic Study be?—A Response to Nelson on Michener — *Denis J. Brothers* — 118
- Recognition of Convergence and Parallelism on Wagner Trees — *Charles H. Nelson* — 122
- The Perils of Perfection: A Reply to D. H. Colless — *Gareth Nelson* — 124

Reviews
- Ontogeny and Phylogeny • Evolution • Organismic Evolution • Genetic Evolution • The World Oestridae (Diptera), Mammals and Continental Drift • The Mayflies of North and Central America • The Phylogeny and Biogeography of Fossil and Recent Gars (Actinopterygii: Lepisosteidae) • Fishes of the World • Comparative Morphology of the Inner Ear in Salamanders (Caudata: Amphibia) • The Poverty of Historicism • Objective Knowledge: An Evolutionary Approach • Unended Quest: An Intellectual Autobiography — 125

Notices
- Honorary Members of SSZ • Ernst Mayr Student Award • Annual Meeting • Systematics in Yugoslavia • Correction — 141

NUMBER 2

Taxonomic Congruence — *M. F. Mickevich* — 143
Vicariant Patterns and Historical Explanation in Biogeography — *Donn E. Rosen* — 159
Phylogeny of Tetraploid Castostomid Fishes Based on the Loss of Duplicate Gene Expression — *Stephen D. Ferris and Gregory S. Whitt* — 189

Points of View
- On Professor Blackwelder's "Twenty Five Years of Taxonomy" — *James A. Slater* — 207
- Deduction, Induction, and Biogeography — *Leon Croizat* — 209
- Why are so many Minute Land Snails on the Pacific Islands: A Response to Leon Croizat — *Joseph Vagvolgyi* — 213
- Science, Philosophy, and Systematics — *Joel Cracraft* — 213
- Classification and Prediction: A Reply to Kitts — *Gareth Nelson* — 216
- Verifiability in Systematics — *Colin Patterson* — 218
- Theoretics and Systematics: A Reply to Cracraft, Nelson, and Patterson — *David B. Kitts* — 222
- Phylogeny Reconstruction and Classificatory Insufficiency — *Dieter Stefan Peters* — 225
- On Phylogeny Reconstruction — *Zdravko Stevcić* — 227
- The 11th Annual Numerical Taxonomy Conference—and Part of the 10th — *James Farris* — 229
- Derived Characters I Have Known — *Filo G. Neticks* — 238

Comments on Recognition of Convergence and Parallelism on Wagner Trees — *M. F. Mickevich* 239
On Exclusion of Species Absence — *Roger H. Green* 242
Reviews
The Phylogeny of Vertebrata [Two Views] • The Spirit of System: Lamarck and Evolutionary Biology • Les Problèmes de l'Espèce dans le Règne Animal • The Arthropoda: Habits, Functional Morphology, and Evolution • Major Patterns in Vertebrate Evolution • Evolution of Brain and Behavior in Vertebrates • Evolution, Brain, and Behavior: Persistent Problems • Ever Since Darwin: Reflections on Natural History 244

NUMBER 3

Inferring Phylogenetic Trees from Chromosome Inversion Data — *J. S. Farris* 275
Chain Processes in Chromosomal Speciation — *M. J. D. White* 285
Biochemical Systematics of Members of the Genus *Rana* Native to Western North America — *Susan M. Case* 299
Evolutionary History of the Cestode Order Proteocephalidea — *Daniel R. Brooks* 312
Ontogeny, Phylogeny, Paleontology, and the Biogenetic Law — *Gareth Nelson* 324
Points of View
Footnote to the Discussion of Rosa's Theories by Baroni-Urbani — *George Gaylord Simpson* 346
On the Falsifiability of Natural Selection — *Daryl P. Domning* 346
Adaptation, Selection, and Falsifiability — *Norman I. Platnick* 347
On von Baerian and Haeckelian Recapitulation — *Søren Løvtrup* 348
Homology of the Os Paracuneiforme: A Correlation of Clinical and Comparative Anatomy — *Glenn C. Conroy* 353
Phylogenetic and Cladistic Hypotheses: A Debate — *Charles W. Harper, Jr. and Norman I. Platnick* 354
Comments on Classifications as Historical Narratives — *Walter J. Bock* 362
Classifications, Historical Narratives, and Hypotheses — *Norman I. Platnick* 365
Reviews
Introduction to Natural Selection • Problems in Vertebrate Evolution • The Expanding Earth • The Philosophy of Karl Popper • Criticism and the Growth of Knowledge • The Structure of Scientific Theories • The Philosophy of Karl Popper • Karl Popper 370
Books Received 388
Notices 389

NUMBER 4

Testing of Evolutionary Independence in Simulated Phylogenetic Trees — *P. Astolfi, A. Piazza, and K. K. Kidd* 391
Cases in Which Parsimony or Compatibility Methods Will Be Positively Misleading — *Joseph Felsenstein* 401
Winter Biogeography of North American Fringillidae (Aves): A Numerical Analysis — *Carl E. Bock, Jeffry B. Mitton, and Larry W. Lepthien* 411
Randomness in Allopatric Speciation — *Sydney Anderson and Mary K. Evensen* 421
Geographic Protein Variation and Divergence in the Salamanders of the *Plethodon welleri* Group (Amphibia, Plethodontidae) — *Allan Larson and Richard Highton* 431
Chromosomal Homology and Evolution of Phyllostomatoid Bats — *John C. Patton and Robert J. Baker* 449
Points of View
Paleobiologic Application of Character Displacement and Limiting Similarity — *J. A. Fagerstrom* 463
An Efficient Method for Finding Monothetic Groups — *James S. Farris* 468
Gaps and Prediction in Classification — *Norman I. Platnick* 472
The Perils of Plesiomorphy: Widespread Taxa, Dispersal, and Phenetic Biogeography — *Gareth Nelson and Norman I. Platnick* 474
Reviews
Modes of Speciation • Geographic Variation, Speciation, and Clines • Biogéographie et Evolution en Amérique Tropicale • Human Biogeography • Evolution of Living Organisms • Phylogenetic Relationships in Lizard Family Pygopodidae • Living New World Monkeys (Platyrrhini) 478
